SUMMARY OF SUBSTANCE OF TELEPHONE INTERVIEW

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

During a telephone interview on April 16, 2007 between the undersigned and Examiner Wong, the examiner and the undersigned agreed to a non-narrowing amendment of the last two lines of claim 25 to eliminate the term "uses" by replacing "said regenerator uses a signal whose amplitude is zero as the signal for suppressing peak power" to "said signal for suppressing peak power comprises a signal whose amplitude is quasi-zero."

The examiner and the undersigned agreed to amend claims 30-32 in a similar manner.

It was agreed that these amendments would be made via
Examiner's Amendment accompanying a notice of allowance.

Respectfully submitted,

James E. Ledbetter
